COMMENTS

1-2 are usable fiber but noted *5-10 are reasons your fleece was not usable*

1	***Well skirted. Thank You!***
2	Usable but caution: tender fleece.
3	Vegetation, next time please clean more.
4	Variation in micron, mixed grades, and / or protruding primary hairs.
5	Too Much variation and/or second cuts present.
6	Excessive guard hair. Cannot be used in any AFCNA product.
7	Excessive breaks within staples / locks, rotten or severely tender fleece. Unusable by AFCNA
8	Micron range beyond grade five. Unusable by AFNCA.
9	Scattered vegetation throughout. Unable to process.
10	Parasite infestation upon opening bag. Unusable by AFCNA. Must be destroyed.
	Total rejected fiber – NO COMMERCIAL VALUE

Alpaca Fiber Cooperative Of North America, Inc. ("AFCNA") shall not be liable for and the party submitting alpaca fiber to AFCNA ("Submitter") unconditionally releases AFCNA and its agents from all loss of or damage to the submitted fiber arising from: (a) not including a fiber clip report with the submitted fiber, (b) lost in transit to AFCNA, (c) parasites, (d) mold, or (e) felting. Submitter's shipping fiber to AFCNA will be consent to this provision.
